PROFESSIONAL PROFILE

Passionate about unlocking the potential of data.

With a strategic focus and commitment to learning, I am prepared to contribute to innovative projects.

I firmly believe that well-crafted data enhance our ability to extract meaningful insights, driving informed decision-making processes.

Always ready to face challenges and seeking opportunities to apply my skills and contribute to the success of innovative companies.

SKILLS

— *SQL*: Proficient in querying and efficiently manipulating data in databases.
— *Python*: Skilled in developing solutions and pipelines.
— *Spark*: Knowledgeable in advanced data manipulation and analysis at scale.
— *Airflow*: Knowledge in automated orchestration of data workflows.
— *Power BI*: Capable of creating interactive data visualizations.
— *Cloud Services*: Familiar with cloud platforms for data storage.
— *DBT*: Knowledgeable in database transformation and model creation.

EDUCATION

Instituto Vicente Pallotti: Secondary Education with emphasis on Economics.
Harvard CS50: Programming with Python.

PROJECTS

Visit my portfolio of projects here to see practical applications of my skills in data analysis, data engineering, and more.
